MIXED USE FREEHOLD PROPERTIES WITH SIGNIFICANT INVESTMENT, DEVELOPMENT AND ASSET MANAGEMENT OPPORTUNITIES

78-102 BROADWAY & 7 SALWAY PLACE

savills

STRATFORD | LONDON | E15 1NG

EXECUTIVE SUMMARY

- The Site comprises 78-102 Broadway & 7 Salway Place, Stratford, extending to approximately 1.56 acres (0.63 hectares) and occupying a prominent position at the eastern entrance to Stratford Shopping Centre within the London Borough of Newham.
- 78-102 Broadway comprises a substantial mixed-use freehold building extending to approximately 161,826 sqft (15,034 sqm) GIA, including retail, public house, former data centre on the upper floors and four residential apartments, extending to approximately 2,043 sqft (189.7 sqm) NSA.
- 78-102 Broadway currently generates an income of £122,500 per annum from Poundstretcher Ltd, with a potential ERV if fully let of approximately £1.4 million per annum.
- 7 Salway Place comprises a vacant freehold residential block of 38 apartments extending to approximately 18,699 sq ft (1,737 sq m) NSA, with a potential ERV if fully let of £900k per annum once refurbished.
- The Site benefits from a supportive planning framework within Stratford Metropolitan Centre, identifying the area for mixed-use growth, regeneration and intensification.
- The Properties offer significant redevelopment potential, with the opportunity to deliver a significant living-led scheme. Feasibility studies show the Site has potential for c.800-bed PBSA or c.325-units BTR and is suitable for a range of other uses such as co-living, hotel, education or storage, subject to the necessary consents.
- The Properties provide a range of investment, asset management and value-add opportunities through leasing initiatives, refurbishment, repositioning or longer-term redevelopment strategies.
- Excellent transport connectivity is provided by Stratford Station being 400m from the Property, with access to the Elizabeth Line, Central Line, Jubilee Line, DLR, London Overground and National Rail services.
- Offers are invited for the freehold interests, either as a whole or on an individual basis.

STRATFORD

The Site is prominently located in Stratford within the London Borough of Newham, approximately 6 miles east of Central London. Stratford is one of London's most significant regeneration and growth locations, benefitting from substantial residential, commercial, retail and infrastructure investment driven by the Queen Elizabeth Olympic Park and wider East London development initiatives.

The immediate area comprises a dense and rapidly growing residential population, supported by a wide range of retail, leisure and hospitality operators centred around Stratford town centre and Westfield Stratford City, one of Europe's largest urban shopping destinations. The Queen Elizabeth Olympic Park is situated immediately south-west of the property, providing extensive green space, sporting facilities and year-round visitor attractions.

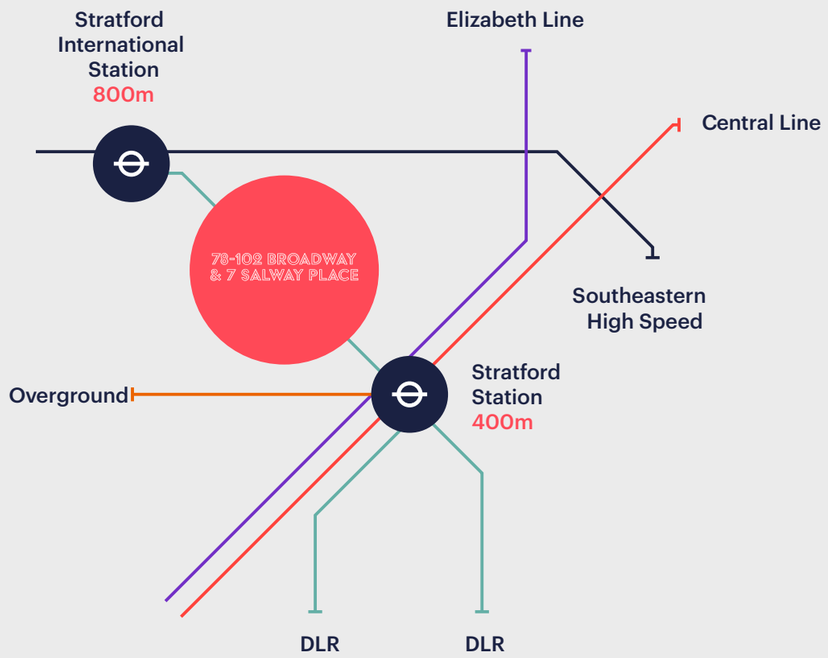

78-102 BROADWAY
& 7 SALWAY PLACE

The wider area is home to several major educational institutions including the University of East London and UCL East, UCL's new campus within the Queen Elizabeth Olympic Park. The East Bank cultural and education district further enhances Stratford's appeal, bringing together institutions such as the Victoria & Albert Museum, London College of Fashion and Sadler's Wells. In addition, the area continues to see significant purpose-built student accommodation and large-scale residential developments, underpinning strong levels of footfall and long-term occupational demand.

EXCEPTIONALLY CONNECTED

Stratford benefits from exceptional connectivity via Stratford Underground, Overground, DLR and Elizabeth Line stations, providing direct access to the City of London, Canary Wharf and the West End. Stratford International Station also offers Highspeed rail services to Kent and wider national rail connections.

THE STRATFORD RETAIL ENVIRONMENT

Stratford benefits from a comprehensive and diverse retail offer, encompassing Stratford town centre, Stratford Shopping Centre and Westfield Stratford City.

The town centre provides a broad mix of convenience and comparison retail, catering to the regular shopping needs of its growing local catchment. The Broadway accommodates a significant proportion of this provision.

Stratford Shopping Centre represents a substantial component of the town's retail offer, with a strong focus on value and convenience operators, including Sainsbury's, Lidl and Poundland. It is established as the primary town centre retail destination, recording footfall of 21 million in 2019 and recovering to 17 million in 2023, representing a significant post-COVID recovery.

The centre provides a critical mass of retail facilities serving both the local and wider catchment, while also acting as an important link between the Broadway to the east, Stratford transport interchange and Westfield Stratford City to the west.

Westfield Stratford City is the largest urban shopping centre in Europe and the UK's leading destination for footfall, attracting approximately 50 million visitors in 2025. The scheme comprises more than 300 stores and over 80 dining options, with its strong market position attracting more than 40 retail and leisure concepts to the UK for the first time since opening.

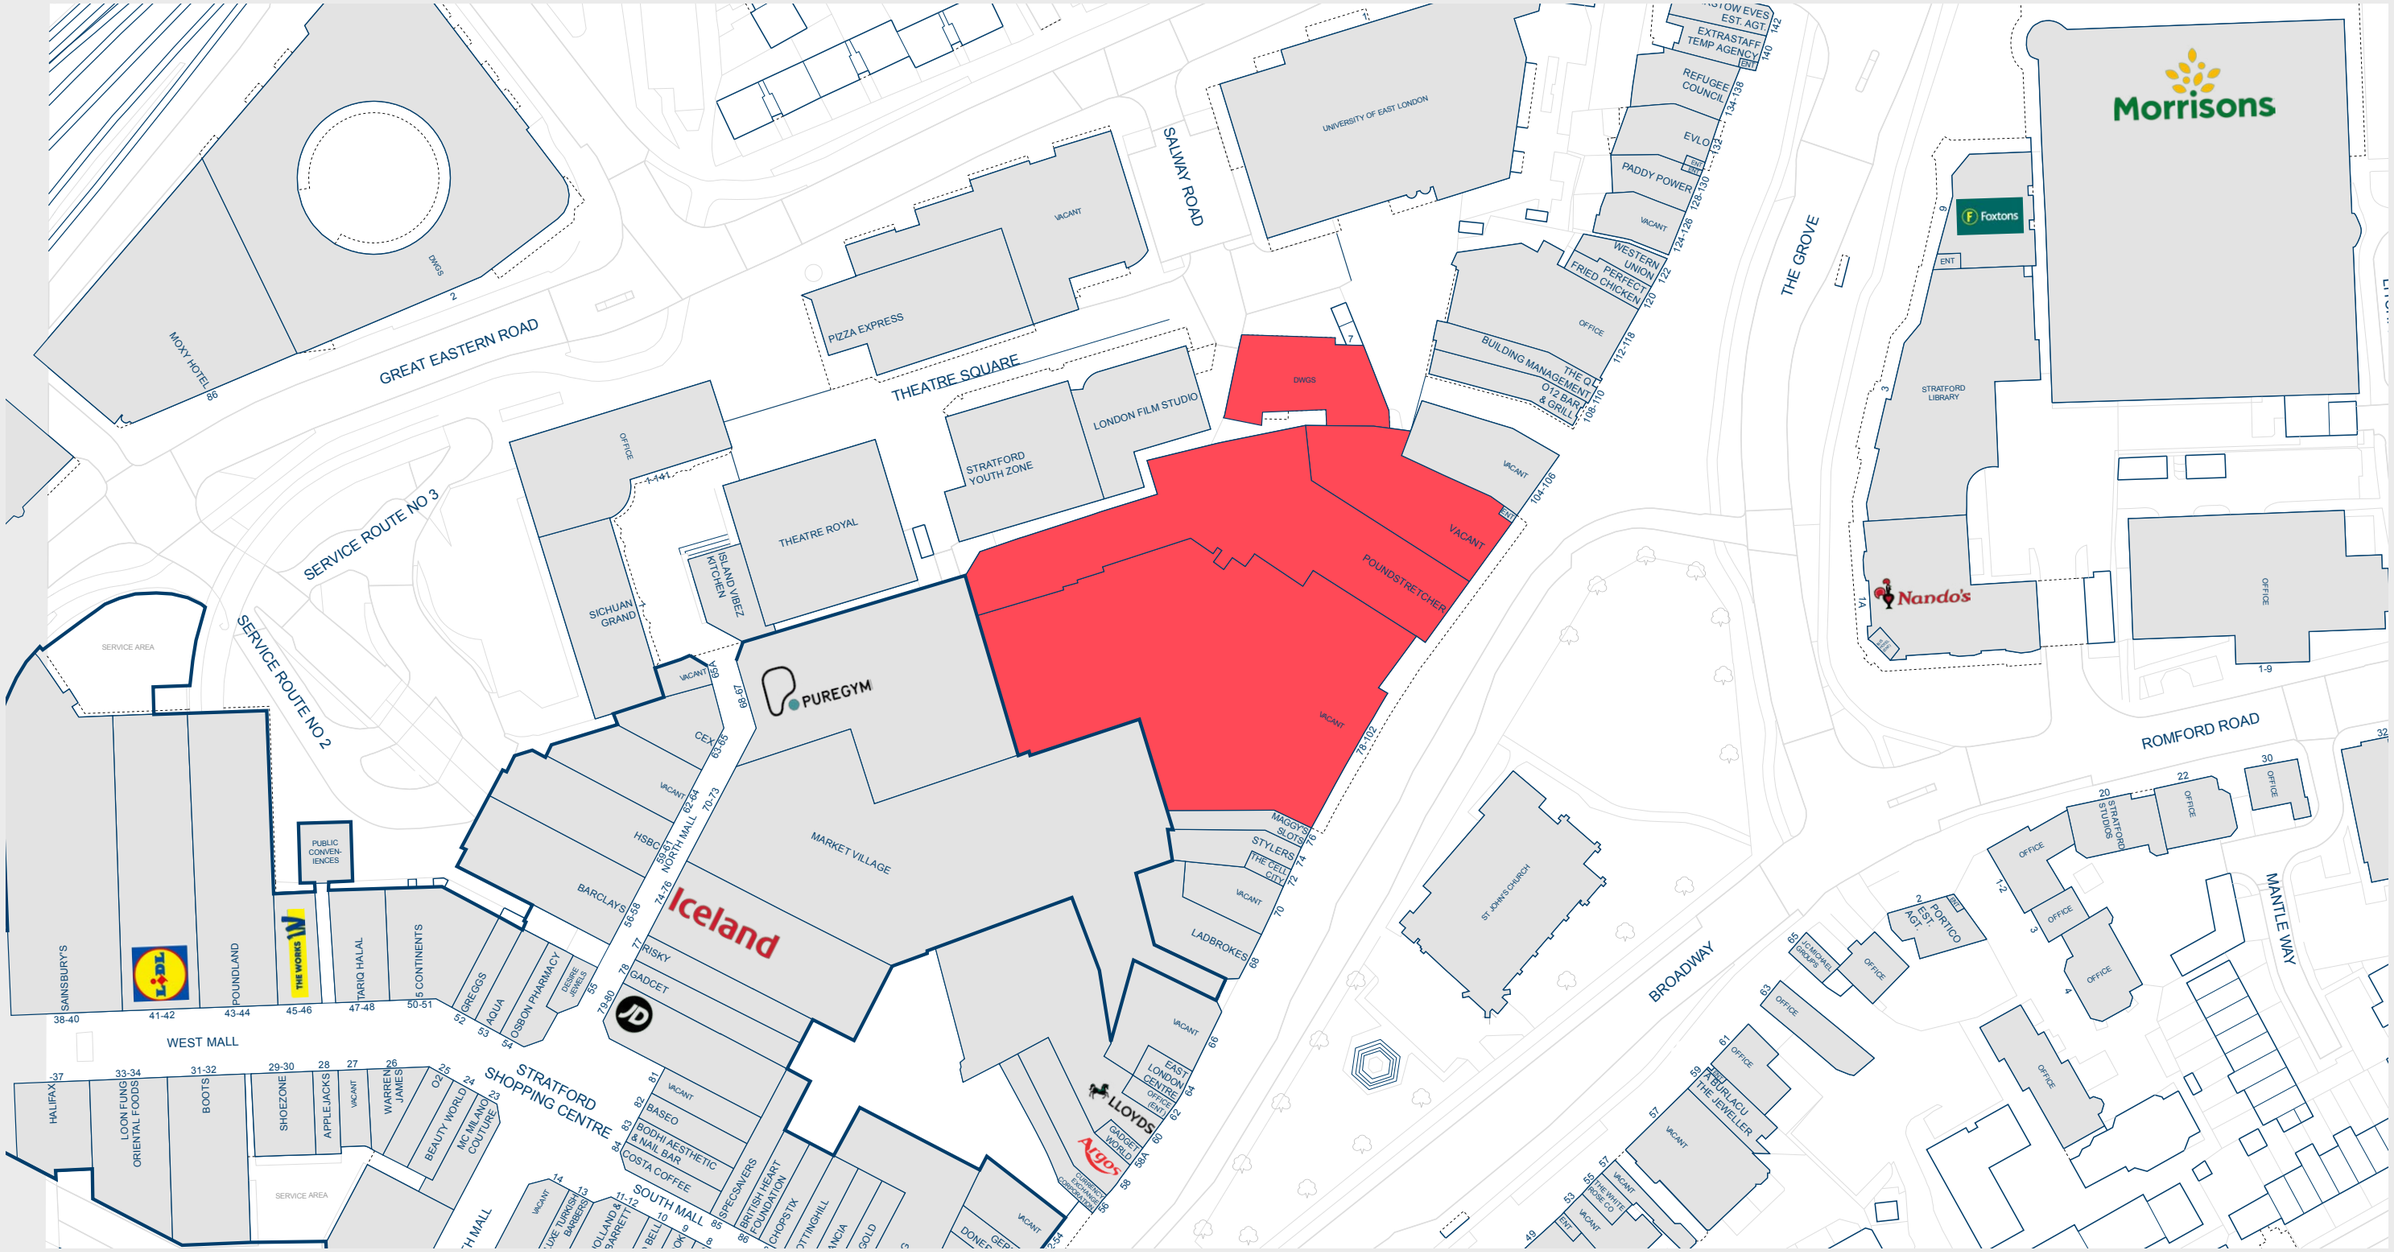

Westfield Stratford City has played a significant role in catalysing the wider regeneration of Stratford. Unibail-Rodamco-Westfield has invested approximately £1.75 billion in the asset, supporting millions of visitors each year alongside significant employment, tourism and investment within the local community.

The centre's diverse mix of retail, leisure, hospitality, hotel and residential uses provides a markedly different offer to Stratford Shopping Centre, which is more focused on convenience, value and essential retail. The two destinations therefore serve distinct, complementary audiences and fulfil different roles within the wider Stratford retail hierarchy. Nevertheless, there is some overlap, with a number of retailers operating across both Westfield Stratford City and Stratford Shopping Centre.

The Broadway is an established secondary retail thoroughfare within Stratford town centre, providing a complementary mix of convenience, value and service-led occupiers serving the substantial local catchment. Positioned between Stratford Shopping Centre and the wider town centre, it benefits from strong connectivity and regular pedestrian movement, with access via the subject property's East Mall.

The Broadway plays an important role within Stratford's wider retail hierarchy, supporting the town centre's day-to-day shopping offer and benefiting from the significant footfall generated by Stratford transport interchange, Stratford Shopping Centre and Westfield Stratford City. Its predominantly local and convenience-led offer provides a clear point of differentiation from Westfield's more destination-led retail and leisure proposition.

& 7 SALWAY PLACE

RETAIL CATCHMENT & DEMOGRAPHICS

78-102 Broadway occupies a prominent position within Stratford, one of London's strongest growth locations. Benefitting from significant regeneration, substantial living-led development and excellent connectivity, the Property serves a large and expanding catchment population. The surrounding area has experienced considerable demographic and economic growth, supporting high levels of pedestrian activity and reinforcing Stratford's role as a key retail and commercial hub within East London.

ASSET OVERVIEW

78 – 102 BROADWAY

Originally constructed in the 1950s as a Co-op department store, the Property is of concrete frame construction with brick and block elevations beneath a combination of flat and pitched roofs.

Arranged over basement, ground and two upper floors, the Property comprises two retail units, a public house, a former data centre and four residential apartments situated at roof level to the rear.

Vehicular access is provided to the rear via Grove Crescent Road, accessed from Salway Road and Great Eastern Road (A118).

A breakdown of the areas can be found below:

PLANNING

Located within Stratford Metropolitan Centre, one of London's most established and well-connected town centre locations.

Allocated for mixed-use redevelopment within both the adopted and emerging Newham Local Plans, supporting residential, retail, leisure, employment, community, health and civic uses.

Identified within the emerging Stratford Central allocation as a key opportunity for comprehensive regeneration and intensification.

Emerging planning policy supports increased building heights, with guidance ranging from 3-7 storeys adjacent to the Conservation Area and 7-10 storeys across the remainder of the Site, subject to detailed design and heritage considerations.

The opportunity offers significant redevelopment potential, with the capacity to deliver either c.800-bed PBSA scheme or a c.350-unit BTR scheme, providing flexibility to respond to market demand and maximise value.

Adjacent sites at 104-106 Broadway have established the principle of redevelopment along this frontage, benefiting from planning permissions for schemes of up to 7 storeys.

Existing Class E accommodation may benefit from Permitted Development rights for residential conversion, subject to the necessary consents.

Offers substantial potential for value-enhancing redevelopment, repositioning and asset management initiatives.

PBSA INDICATIVE SCHEME

The Site is allocated for mixed-use redevelopment within both the adopted and emerging Newham Local Plans, which support residential-led development within Stratford Metropolitan Centre.

The emerging Stratford Central (N8.SA1) allocation identifies the Site as a key redevelopment opportunity capable of accommodating higher-density development in a highly sustainable town centre location.

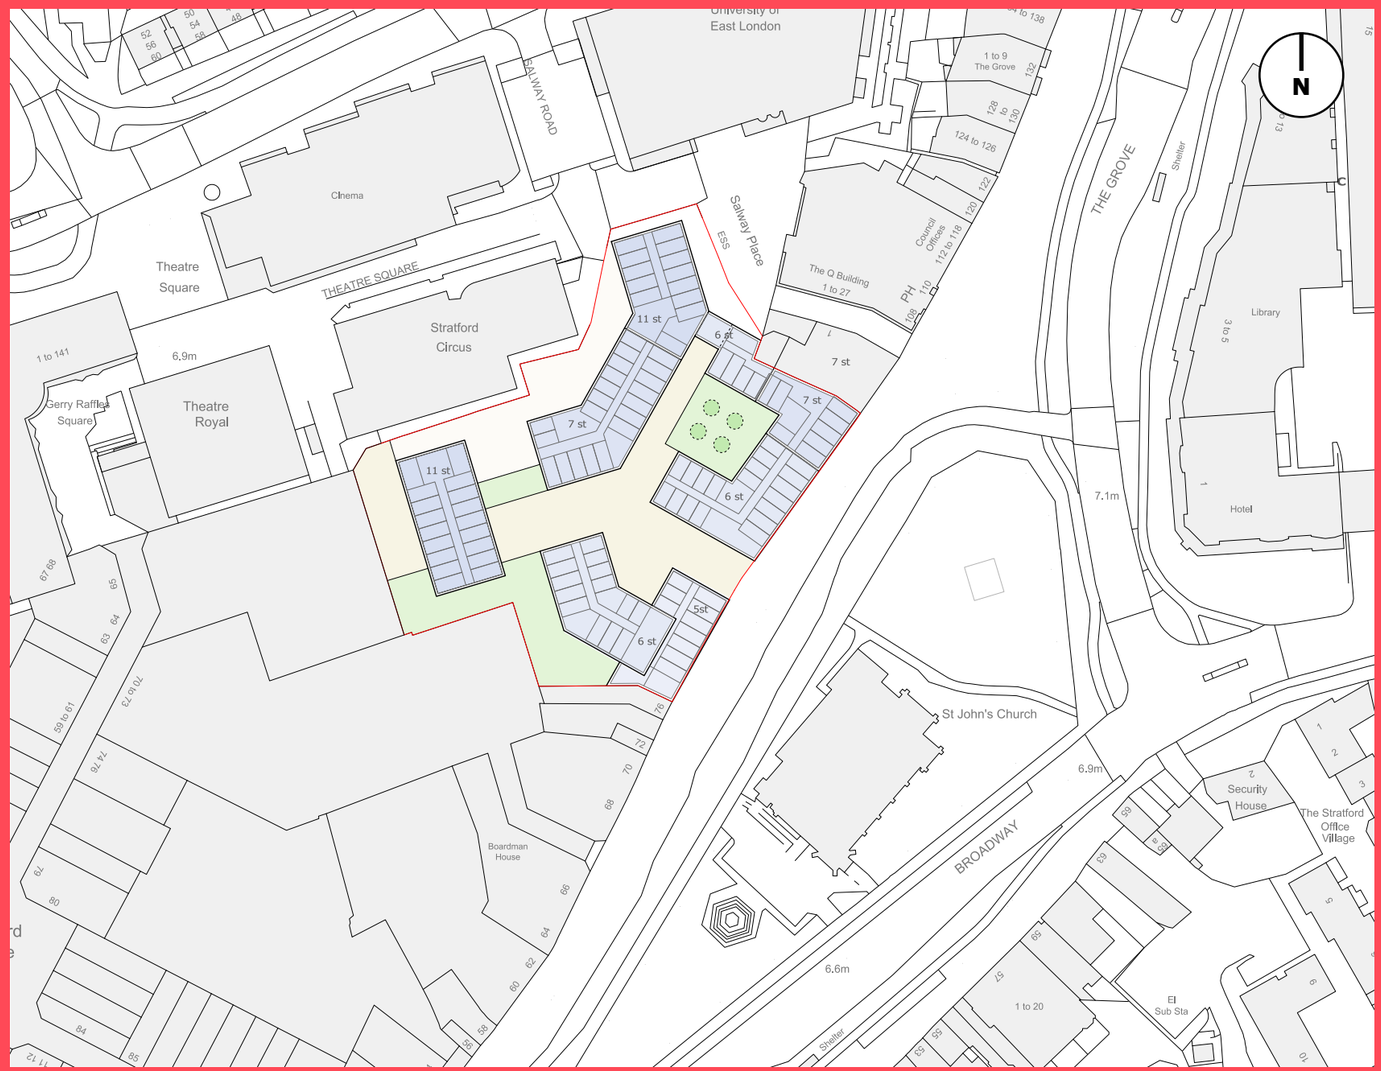

Emerging planning policy supports increased building heights, with guidance ranging from 3-7 storeys adjacent to the Conservation Area and 7-10 storeys across the remainder of the Site, subject to detailed design and heritage considerations.

Initial development studies indicate the potential to deliver an indicative c.800-bed PBSA scheme, subject to obtaining the necessary planning consents.

The Site benefits from proximity to a number of major higher education institutions, including UCL East, London College of Fashion, University of East London and the wider East Bank education district, supporting long-term student accommodation demand.

Stratford's exceptional connectivity, including the Elizabeth Line, Central Line, Jubilee Line, DLR and National Rail services, provides direct access to universities and higher education campuses across London.

The Site's planning allocation, scale and location combine to create a compelling opportunity for the delivery of a significant PBSA scheme within one of London's principal growth and education hubs.

Source - Martin Taylor Architects. Feasibility for indicative purposes only

Source - Martin Taylor Architects. Feasibility for indicative purposes only

BTR INDICATIVE SCHEME

Initial development studies indicate the potential to deliver an indicative c.325 units Build-to-Rent scheme, creating a significant residential-led development opportunity.

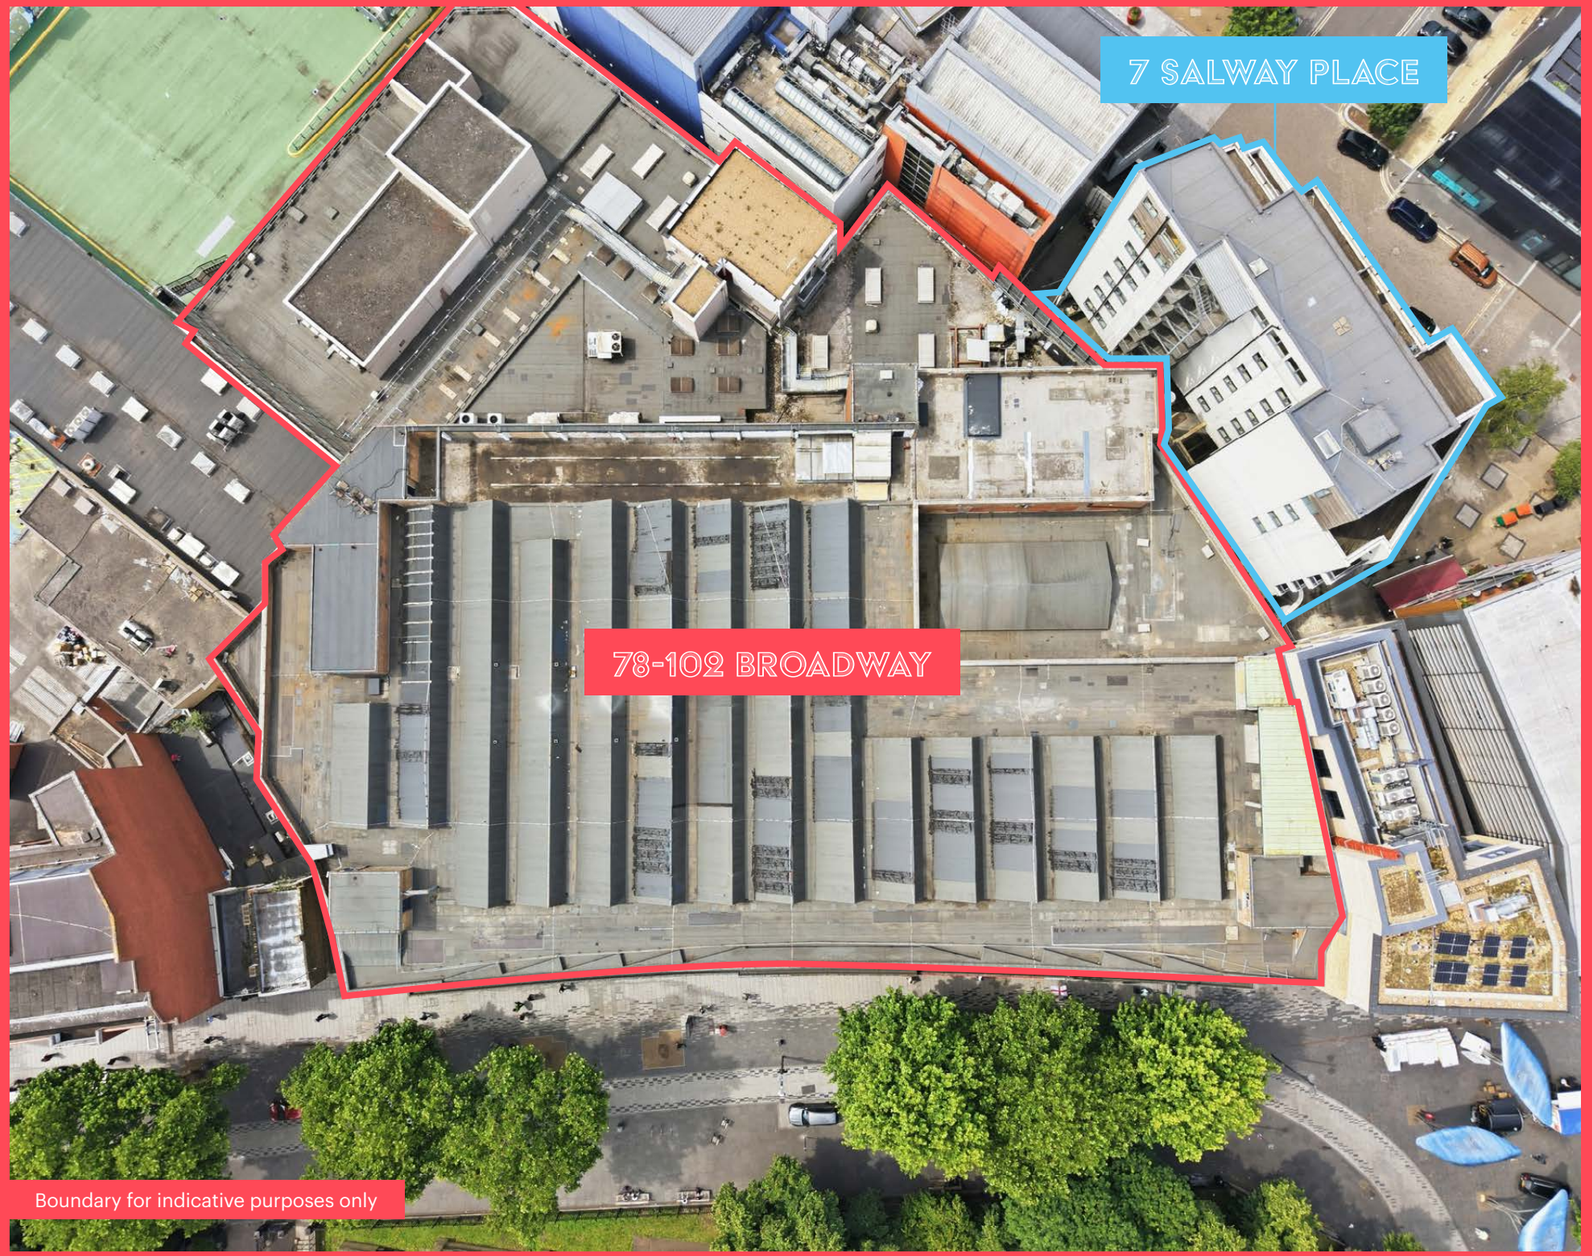

Stratford is one of London's most established residential growth locations, having benefited from substantial regeneration, inward investment and large-scale residential delivery following the 2012 Olympic Games.

The Site sits within a rapidly expanding residential catchment, supported by strong population growth, a diverse employment base and ongoing investment in the wider Stratford area.

A Build-to-Rent scheme would benefit from proximity to major employment centres including The City, Canary Wharf, Stratford International Quarter and East Bank.

The location's exceptional connectivity, extensive retail and leisure provision, and access to green space within Queen Elizabeth Olympic Park support strong long-term rental demand.

The opportunity provides the potential to deliver a large-scale professionally managed rental community in one of East London's most well-established and highly amenitised residential markets.
